To Whom It May Concern:

I would like any organization considering Gail McWilliams as their motivational speaker to be aware of the following: Gail McWilliams is one the most inspirational, motivating, heart-felt, dynamic, energetic, professional, transparent, and encouraging speakers I have ever had the pleasure of hearing. Her keynote delivery on Vision was life changing. As an entrepreneur, I thought I had vision, but I have never been able to visualize more clearly then after I attended a fundraiser where Gail McWilliams spoke to over 600 other professionals in attendance. I was moved to tears by her inspiring story of how she became blind because of sacrificing her site in exchange for her children's lives, all the while never losing her Vision. I have never heard of anyone with as much courage and determination as Gail McWilliams. I have paid hundreds of dollars for seminars to hear the professional speakers including Zig Ziglar, Anthony Robbins, Colin Powel, Ann Richards, Les Brown, Brian Tracy, Peter Daniels and others. However, none of them compare to hearing Gail McWilliams. Gail's light hearted words of wisdom and hope have been more than just inspirational to me and thousands of others who have heard her; they have given me a higher sense of purpose that will immeasurably affect not only my business, employees and clients, but also my family forever. I am confident that Gail McWilliams' message will do the same for you.

Sincerely,

Johnathan Marocco
