Dear Jennifer;

An overdue note of thanks to you and Gail McWilliams for taking the time to speak to our Dallas based La Quinta employees. You were able to both educate and entertain and it was greatly appreciated by all!

Initial results of our 2004 United Way Campaign show that we have surpassed our goals. I believe that your contribution of time and information greatly assisted us in achieving this success.

Please pass our thanks on to Gail McWilliams and let her know that numerous individuals at La Quinta believe that she missed her calling-- she should become a professional speaker! Although, I imagine that the book signings and book promotions that lie in her future may allow her to do just that! Please keep us informed of her writing progress, she has a number of fans in our office.

We thank you....for assisting us in saying "Thank You" to those organizations within our communities providing critical services to our neighbors.

Best Regards;

Sandy Heilman
Vice President, Electronic Distribution & Marketing
